

IMMANUEL AKROFIE-BRUCE

Motivational Speaker | AI • STEM • Digital Technology • Education • Leadership

WORKSHOP

Innovation & Personal Growth

Turning Ideas Into Action

DESCRIPTION

Ideas are common; execution is rare. This workshop gives participants a structured method for moving from idea to tested action, using an engineering approach to problem solving.

Participants leave having scoped a real idea, identified their blockers and committed to a first experiment.

IDEAL AUDIENCES

- Corporate teams and innovation groups
- Entrepreneurs and small business owners
- Professional development audiences
- Community and nonprofit groups

WHAT AUDIENCES TAKE AWAY

- A repeatable framework for testing ideas quickly
- Techniques for identifying and removing personal blockers
- A structured problem-solving method drawn from STEM practice
- A committed 30-day action experiment

AVAILABLE FORMATS

90 min workshop • Half-day workshop • Team offsite session • Virtual workshop

“Your circumstances may influence your journey, but they do not have to define your destination.”
