

IMMANUEL AKROFIE-BRUCE

Motivational Speaker | AI • STEM • Digital Technology • Education • Leadership

WORKSHOP

Student Motivation & Future Readiness

Confidence, Resilience and Skills for What's Next

DESCRIPTION

An energetic, participatory session that connects students' present effort to their future options. Students examine where careers are heading, what AI changes, and which skills hold value.

Activities build self-belief, study discipline and a personal plan students can actually follow.

IDEAL AUDIENCES

- Secondary and high school students
- College and university students
- Youth programs and summer institutes
- Career fairs and pathway events

WHAT AUDIENCES TAKE AWAY

- A clear view of emerging careers and STEM pathways
- Study and focus habits that survive distraction
- Digital skills and responsible technology use
- A written personal goal plan with next steps

AVAILABLE FORMATS

60 min interactive session • 90 min workshop • Assembly plus breakout • Virtual workshop

“Your circumstances may influence your journey, but they do not have to define your destination.”

Booking & speaking inquiries: available for local, national and international events. Request a speaking engagement via the Book page.
